FEDERAL PROGRAMS

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD) PROGRAMS

HOME Investment Partnerships (HOME) Program: The HOME program expands the supply of decent, affordable housing for low- and very low-income families; builds state and local capacity to design and carry out affordable housing programs; provides financial and technical assistance to participating jurisdictions, and strengthens partnerships among all levels of government and the private sector in the development of affordable housing in Montana.

The Montana Department of Commerce (MDOC), Housing Division, administers the HOME Program. This program allows tenant-based rental assistance; assistance to first time home buyers; property acquisition; new construction; rehabilitation; relocation; building rehabilitation; site improvements; and other activities for developing non-luxury housing.

All HOME funds assist families with incomes below 80% of the area median income. HOME funds are distributed on an annual competitive basis. All cities (except Billings and Great Falls), counties, contiguous units of local government, Public Housing Authorities and MDOC-certified Community Development Housing Organizations (CHDOs) are eligible to apply for HOME funds. A minimum of 15% of HOME funds are set aside for CHDOs. *Contact person: Connie Onstad, HOME Program Manager, (406) 841-2820.*

The **HOME Program of Great Falls** is dedicated to funding projects that expand the supply of decent, safe, sanitary, and affordable housing for very low-income citizens of Great Falls. Eligible activities include housing assistance to very low- and low-income renters, housing assistance to very low- and low-income existing and first time homebuyers, and housing assistance to homeless persons and households. Examples of eligible projects include new construction of affordable housing, housing rehabilitation, down payment and closing cost assistance to low-income homebuyers, and transitional housing programs for homeless persons and households. Only projects located within the city limits are eligible for funding. Project proposals are accepted on an annual basis. Technical assistance for project development is available. *Contact person: Kim Johnson, Grant Administrator, Community Development Department, City of Great Falls, (406) 455-8407 or (406) 454-0495 for the hearing impaired.*

The **City of Billings HOME Program's** primary objective is to provide clean, safe, and affordable housing for low-income residents in Billings. This objective is achieved by the City of Billings First Time Homebuying Program, which provides down payment, closing cost and minor rehab assistance to eligible applicants. To create more affordable housing in the City, the Billings HOME Program provides HOME funds to Community Housing Development Organizations. CHDOs are certified nonprofit organizations and can receive funds set-aside just for CHDOs. The Billings HOME Program also provides grant funds to

for-profit groups to build affordable housing through the City of Billings HOME Program Demonstration Affordable Housing Development Program. *Contact person: Joe Burst, HOME Program Coordinator, (406) 657-3045*

Community Development Block Grant (CDBG) Program: The primary objective of the CDBG program is to develop viable communities by providing decent housing and a suitable living environment and by expanding economic opportunities for low- and moderate-income persons in Montana. Fifty-one percent of the funds must be used for activities that benefit low- and moderate-income persons.

Montana administers two components of the State CDBG program through the Community Development Division and the Business Resources Division of MDOC. Two-thirds of the program funding is for public facilities and housing projects, administered by the Community Development Division. One-third of the funding is for economic development projects, administered by the Business Resources Division. The State makes grants for community development activities to units of general purpose local government (counties and municipalities, except Billings, Great Falls and Missoula). Montana's Community Development Block Grant Program is a federally funded competitive grant program designed to help communities of less than 50,000 population with their greatest community development needs. All projects must principally benefit low- and moderate-income persons.

Some of the activities that can be carried out with CDBG funds include the acquisition of real property; rehabilitation of residential and nonresidential properties (including special facilities for the handicapped); construction of new, affordable housing (when sponsored by a nonprofit organization); provision of public facilities and improvements such as water, sewer, or solid waste facilities or senior citizen centers; and assistance to for-profit businesses to promote economic development activities that will result in the creation or retention of jobs.

Under the housing category, CDBG funds can be used to provide homebuyer assistance, including the subsidy of interest rates and mortgage amounts for low- and moderate-income homebuyers. CDBG funds may also be used to make low interest loans or grants to low- and moderate-income families to allow them to rehabilitate homes in substandard condition. CDBG funds can be used to finance or subsidize the construction of new permanent residential units where the CDBG funds will be used by a local nonprofit organization. Housing projects can include site improvements to publicly owned land or land owned by a nonprofit organization to be used for new housing. Community revitalization activities, such as neighborhood clean-up and fix-up projects, as well as the demolition of vacant, seriously dilapidated structures are also eligible housing activities.

Transitional (temporary) housing is eligible under the housing category. The acquisition of sites for new housing and conversion of existing nonresidential structures for residential use are also eligible CDBG housing activities.

CDBG public facility funds have been used to upgrade or undertake the new construction of dozens of community water and sewer systems. During the last few years communities have also utilized the CDBG program to construct or rehabilitate senior citizen centers, centers for abused or runaway youth, and nursing home facilities. *Contact person: Gus Byrom, CDBG Program Manager, (406) 841-2791.*

Tenant Based Section 8 Program – Certificates, Rental Vouchers and Moderate Rehabilitation: Financed by HUD and administered by the Montana Department of Commerce Housing Division, Tenant Based Section 8 (TBS8) Housing Assistance Programs allow very low-income families to pay a set amount towards rent and utilities, based on their gross adjusted income (currently 30%). Very low-income families have incomes of 50 percent or less of the HUD median family income for the county in which the family resides. HUD establishes income limits annually. The programs provide subsidy payments to property owners on behalf of program participants.

The TBS8 program, using 35 local field agents in eleven locations throughout the State, provides field services: issuing assistance documents, performing inspections, and examining annual income. The Housing Choice Vouchers is the main program in TBS8, with a HUD baseline of 3,596 units, and an annual budget of $14 million.

The Moderate Rehabilitation (Mod Rehab) program has a budget of approximately $3 million annually. In essence a project-based program, owners of substandard property in Montana rehabilitate the property to meet HUD Housing Quality Standards (HQS) and receive subsidized rent for 15 years at a rate high enough to cover the debt service on rehabilitation loans. TBS8 provides a list of prospective tenants and inspects the rental units annually to insure continued compliance with HQS. *Contact person: George Warn, Bureau Chief, (406) 841-2830.*

Project Based Section 8 Program: The Montana Project Based Section 8 (PBS8) program is a relatively new program administered by the Housing Assistance Bureau. Active since November 2000, PBS8 performs as a HUD contractor for management and oversight activities for 91 contracts involving over 3,600 affordable rental units. PBS8 conducts on-site management reviews annually for the entire contract portfolio. In addition, PBS8 approves and processes payment vouchers to property owners and agents. *Contact person: Dave Parker, Program Manager, (406) 841-2830.*

Emergency Shelter Grants (ESG) Program: The Montana Department of Public Health and Human Services (DPHHS), Human and Community Services Division, administers the ESG Program, to help improve the quality of existing emergency shelters for the homeless, make available additional shelters, meet the costs of operating shelters, and provide essential social services to help prevent homelessness. The grant is 100 percent funded by the U.S. Department of Housing and Urban Development. According to federal law, 95 percent of funds received must be allocated to the 10 regional Human Resource Development Councils (HRDCs) in the State. The grants fund the renovation, rehabilitation, or operating costs of homeless shelters, and the provision of follow-up and long-term services to help homeless persons escape poverty. Shelters to be assisted and services to

be delivered are determined by the HRDCs. *Contact person: Jim Nolan, Intergovernmental Human Services Bureau, Montana DPHHS, (406) 447-4260.*

Housing Opportunities for Persons With AIDS (HOPWA) Program: The Montana Department of Public Health and Human Services (DPHHS), Human and Community Services Division, also administers the HOPWA Program. New in 2002, DPHHS received a 3-year, $1,309,501 HOPWA grant covering the States of Montana, North Dakota, and South Dakota. Known as TRI-STATE HELP (Housing Environments for Living Positively), the mission of the program is to provide access to affordable housing and supportive services to people living with AIDS and their families in a dignified manner.

TRI-STATE HELP (TS HELP) is a partnership between the DPHHS and four private agencies—two in Montana and one each in North Dakota and South Dakota. TS HELP assists persons living with HIV by strengthening and expanding HIV/AIDS housing and related supportive services in the three-state area. HOPWA funds are used to provide tenant based rental assistance, emergency assistance, and supportive services to individuals living with HIV/AIDS and their families. *Contact person: Jim Nolan, Intergovernmental Human Services Bureau, Montana DPHHS, (406) 447-4260.*

Shelter Plus Care Program: Shelter Plus Care (SPC) grants help provide housing and supportive services on a long-term basis for homeless people with disabilities, especially serious mental illness, chronic drug or alcohol problems, and AIDS. Program grants are used for the provision of rental assistance payments through Section 8 Moderate Rehabilitation (SRO), sponsor-based rental assistance (SRA), tenant-based rental assistance (TRA), or project-based rental assistance (PRA). HUD requires that 10 percent of total funds be made available for each of these four program types.

Shelter Plus Care funds are awarded in a nationwide competition, with priority given to homeless needs. States, units of local government, Indian tribes, and Public Housing Authorities (PHAs) can apply for Shelter Plus Care grants. Support services must match rental assistance and must be supplied by federal, state, or local governments or private sources.

Non-PHA applicants applying for the SRO component must subcontract with a PHA to administer the rental housing assistance. Applicants for the SRA must subcontract with a nonprofit organization, also called a sponsor, to provide rental assistance to sponsor-owned or leased units. PRA applicants must subcontract with a building owner to provide rental assistance for units in a particular property.

As funds become available, a NOFA will be published in the Federal Register. *Contact person: Judy Padgett, Office of Community Planning and Development, HUD-Denver, (303) 672-5420.*

Supportive Housing for the Elderly (Section 202): Supportive Housing for the Elderly provides funding to expand the supply of housing with supportive services for very low-income persons 62 years of age or older. Initial legislation authorizing this program was

enacted in the Housing Act of 1959 (Section 202), and was amended in 1990 by Section 801 of the National Affordable Housing Act. Section 202 funding falls into two categories: capital advances and project rental assistance. Capital advances are to finance elderly housing that also offers supportive services. The advances are non-interest-bearing, and are based on development cost limits published in the Federal Register. Project rental assistance covers the difference between the HUD-approved operating cost per unit and 30% of resident's adjusted income. Funds can be used for acquisition, rehabilitation, new construction, rental assistance, and support services for households containing at least one person over 62 years of age. Private, nonprofit organizations and consumer cooperatives are eligible to apply.

A NOFA is issued in the spring for Supportive Housing for the Elderly and funding is available for eligible Montana entities. To receive application materials, call 1-800-HUD-8929. *Contact person: Marcie LaPorte, HUD, Denver Multifamily Hub, (303) 672-5349.*

Supportive Housing for Persons with Disabilities (Section 811): Section 811 grant monies are awarded to private, nonprofit organizations providing assistance to expand housing with supportive services for persons with disabilities. This often includes group homes, independent living facilities, and intermediate care facilities. Section 811 is targeted for persons with a physical or developmental disability; or chronic mental illness that is expected to be of long and indefinite duration, substantially impedes the person's ability to live independently, and is of such a nature that such ability could be improved by more suitable housing conditions.

The program was authorized by the National Affordable Housing Act, Section 811. The competitive grants are available in two forms: capital advances based on the development cost limits published in the Federal Register, and project rental assistance to cover the difference between HUD-approved operating costs and 30 percent of the resident's adjusted income. Occupancy is open to very low-income persons who are at least 18 years old.

A NOFA is published in the spring in the *Federal Register* for Supportive Housing for Persons with Disabilities. Funding is available for eligible entities in Montana. Those applications scoring highest receive funding. For application materials, call 1-800-HUD-8929. *Contact person: Marcie LaPorte, HUD, Denver Multifamily Hub (303) 672-5349.*

Supportive Housing Program (SHP): This program was created by the Housing and Community Development Act of 1992. It replaces the Supportive Housing Demonstration Program (Transitional Housing Demonstration Program and Permanent Housing for Handicapped Homeless Program) and Supplemental Assistance for Facilities to Assist the Homeless (SAFAH). It incorporates many features of these programs into one program of assistance to governmental entities and private nonprofit organizations to provide housing and supportive services to homeless people. The Supportive Housing Program provides funding under four main components:

- Transitional housing to facilitate the movement of homeless individuals and families to permanent housing.
- Permanent housing that provides long-term housing for homeless people with disabilities (including AIDS and related diseases).
- Housing that is part of a particularly innovative project for meeting the immediate and long-term needs of homeless individuals and families.
- Supportive services for homeless individuals and families not provided in conjunction with supportive housing facilities.

The SHP covers acquisition, rehabilitation, new construction, leasing of structures, operating costs, supportive services, and administrative costs. Grants for operating costs are up to 75 percent for the first two years, and 50 percent for the next three years. Funds for acquisition, rehabilitation, and new construction must be equally matched by cash from other sources. Grants are available to states, local governments, other government entities, Indian tribes and housing authorities, private nonprofit organizations, and community mental health associations that are public nonprofit organizations.

Within the SHP, Safe Havens grants provide very low-income housing for homeless people with serious mental illnesses. It is intended to take in people who may not be willing to enter a housing program. Funds may be used for new construction, acquisition, rehabilitation, leasing assistance, low-demand support services, outreach activities for eligible persons, and operating costs. Governments, private and public organizations may apply for funding. All funds must be matched. New construction is restricted to $400,000 with a one-for-one match. Acquisition and rehabilitation are held to $200,000 to $400,000, depending on high cost areas.

The Rural Homeless Initiative provides for the same activities as SHP, but incorporates homeless prevention activities. Preventive measures can include assistance with rent payments, advocacy, and others that are designed to keep rural residents from becoming homeless.

As funds become available, a NOFA will be published in the Federal Register. *Contact person: Judy Padgett, Office of Community Planning and Development, HUD-Denver, (303) 672-5420.*

Section 8 Single Room Occupancy (SRO) Moderate Rehabilitation Program for Homeless Individuals: This program provides rental assistance for homeless individuals in rehabilitated SRO housing. The Section 8 assistance is provided in the form of rental assistance payments. These payments equal the rent for the unit, including utilities, minus the portion of the rent payable by the tenant under the U.S. Housing Act of 1937. Rehabilitation must involve a minimum expenditure of $3,000 per unit, including its prorated share of work to be accomplished on common areas or systems, to upgrade to decent, safe, and sanitary condition to comply with the Housing Quality Standards. The maximum expenditure allowed per unit is $15,900. Private nonprofit organizations, Indian Housing Authorities (IHA), and Public Housing Authorities (PHA) are the only eligible

applicants. Private nonprofits must subcontract with PHAs to administer the rental assistance. *Contact person: Judy Padgett, Office of Community Planning and Development, HUD-Denver, (303) 672-5420.*

OTHER FEDERAL PROGRAMS

Low Income Housing Tax Credit Program: The low income housing tax credit, established by Congress in the Tax Reform Act of 1986, is intended to provide for the retention, rehabilitation and construction of low income rental housing. Through the program, developers and owners of qualified housing receive an annual federal tax credit for 10 years, based on the number of housing units provided to low-income individuals and families. The Montana Board of Housing receives authority to allocate the credit through the Internal Revenue Code of $2 million per year. Staff monitors projects to ensure low-income tenant and rent restrictions are met. Any non-compliance issues are reported to the IRS. *Contact person: Mathew Rude, Montana Board of Housing, (406) 841-2840.*

VA Direct Loans for Native Americans Living on Trust Lands: The VA Native American Direct Loan (NADL) Program is available to assist eligible Native American veterans purchase, build, or improve a home on Tribal Trust Lands. Loan amounts are determined by an appraisal of the property but are limited to a maximum of $80,000, the appraised value, or the cost of the home, whichever is less. To qualify, the applicant's tribal organization or group must have signed an agreement to participate in the NADL Program. The applicant must be determined to be a satisfactory credit risk and have sufficient income to repay the loan before the loan can be approved. Native American Veterans desiring more information or wanting to determine his or her eligibility for the NADL Program should contact *Dawn Warner, NADL Coordinator, VA Regional Loan Center, Box 25126, Denver, CO 80225 or by calling toll-free 1-888-349-7541.*

U.S. DEPARTMENT OF ENERGY AND OTHER ENERGY PROGRAMS

Energy program funds are available from the U.S. Department of Energy (USDOE) and other agencies. Allocations can be used for rehabilitation and new construction.

Weatherization: Energy costs are one of the greatest demands on a low-income family's resources. During Montana's winter, these costs can exceed rental or mortgage costs. The weatherization program, administered by the Montana Department of Public Health and Human Services (DPHHS), is 100 percent funded by the U.S. Department of Energy and Department of Health and Human Services. The program is designed to help low-income persons reduce their home heating costs and to conserve natural resources. The funds are directed toward local Human Resource Development Councils (HRDCs) and tribal organizations. These groups decide where the grant money will be spent to install energy saving measures in the homes of low-income persons. Homes are prioritized based on energy consumption. Specific measures are decided upon after each home has had an energy audit to determine what activities would be most cost-effective. Measures include insulation, caulking, furnace repair and replacement. Labor and materials are purchased

locally. By reducing overall costs, weatherization helps a family stay in their home, increasing family self-sufficiency.

Funds are currently available and are being allocated in the weatherization program. Submitted applications scoring highest receive funding. Apply by calling the number below or 1-800-332-2272. *Contact person: Jim Nolan, Intergovernmental Human Services Bureau, Montana DPHHS (406) 447-4260.*

Low Income Energy Assistance Program (LIEAP): The Division of Human and Community Services Low Income Energy Assistance Program (LIEAP) is 100 percent funded by the U.S. Department of Health and Human Services. The goal of this program is to assist low-income families in meeting the home heating costs. Funding for households is determined using matrix tables that factor the household's income, fuel type, size and type of home, and local heating degree days. Payments are made directly to the household's utility company. Emergency payments are allowed for unforeseen energy-related events. Up to 15 percent of the block grant may be used for weatherization activities to decrease long-term heating cost problems.

Eligible applicants are prioritized according to energy usage. Those applicants with the highest energy usage receive weatherization assistance. To apply, call Jim Nolan or 1-800-332-2272. *Contact person: Jim Nolan, Intergovernmental Human Services Bureau, Montana DPHHS (406) 447-4260*

U.S. DEPARTMENT OF AGRICULTURE, RURAL DEVELOPMENT PROGRAMS

USDA Rural Development loans and grants are available to assist rural Montana with Single Family Housing, Multi-Family Housing, and essential Community Facilities needs. Rural Development partners with local lenders, community groups and local, state and federal funding sources. *Contact person: Deborah Chorlton, Program Director, Rural Housing Service, Rural Development, Bozeman, (406) 585-2551.*

SINGLE FAMILY HOUSING PROGRAM

The **Single Family Housing** program provides homeownership opportunities to very low-, low- and moderate-income rural residents through several loan, grant and guarantee programs. The program also provides loans and grants to individuals to finance the vital improvements necessary to make their homes decent, safe, and sanitary.

Rural Housing Guaranteed Loans (Section 502): The purpose of this program is to assist low- and moderate-income households through the 90 percent guarantee of loans made by conventional lenders for acquisition of single family homes. Because a down payment is not required, this program helps borrowers by reducing the closing costs. In addition, there is no mortgage insurance premium cost which further reduces the up front costs and monthly payments.

Applicant Requirements: To qualify for a loan guarantee, each applicant must meet all of the following criteria:

- Be unable to obtain a loan without the USDA guarantee on terms and conditions that they can be reasonably expected to meet;
- Have sufficient income to meet all obligations;
- Principal, interest, taxes, and insurance (PITI) not to exceed 29% of income;
- Total indebtedness (monthly obligations of income) not to exceed 41% of income
- Have an acceptable credit history;
- Be a US Citizen or be legally admitted to the United States for permanent residency;
- Be the owner occupant of the dwelling;
- Adjusted annual income must meet the income requirements for the area. Contact your local office for the applicable limits.

Home Requirements: In addition to applicant requirements, there are also certain requirements for the home. It must provide modest, decent, safe, and sanitary housing for the family and cannot have an in-ground swimming pool or other structures designed for income-producing purposes.

The land value of the property cannot exceed 30% of the appraised market value of the home. The property must be inspected by a qualified inspector and conform to USDA Rural Development construction and inspection requirements including thermal standards.

502 Leveraged Loans: Under this program, a portion of the total mortgage is covered by a loan from the lender, while the remainder is financed through a USDA Rural Development loan at a lower interest rate based on the borrower's income.

502 Direct Loans: In limited circumstances, borrowers can receive a 100% direct loan from USDA for the entire purchase price of the home at significantly lower interest rates. Because available funds for the program are limited, assistance under this program is reserved for those with the greatest need looking for homes in targeted areas.

504 Repair Loans and Grants: USDA Rural Development also helps existing homeowners with home improvement loans to improve or modernize their existing home. Eligible very low-income residents can apply for loans of up to $20,000 at 1 percent interest and repayment period up to 20 years.

Very low-income elderly residents aged 62 or older may qualify for grants or a combination of grants and loans to remove health or safety hazards. Lifetime grant assistance is limited to $7,500.

Eligible Improvements:

- Installation and repair of sanitary water and waste disposal systems, including related plumbing and fixtures
- payment of reasonable connection fees for utilities
- various energy conservation measure including installation of insulation and storm windows
- repair or replacement of heating systems and electrical wiring
- structural improvements including repair of, or provision for structural supports; repair or replacement of the roof; and replacement of severely deteriorated siding
- improvements to make homes accessible to handicapped residents

Technical Assistance Grants/Mutual Self-Help Housing Program: Another option available for some families in Montana is the Mutual Self-Help Housing Program. Through this program, non-profit organizations receive technical assistance grants to help very low- and low-income families finance and build their own homes. Applicants must show a need for self-help housing, the professional expertise to supervise a project and a lack of funding to be eligible for this assistance.

Approved applicants in groups of 8 to 12 families provide sweat equity, working together under the guidance of professionals to build each other's homes. When all the homes are completed, each family has gained shelter, confidence, beneficial skills, and an unparalleled sense of community relationship.

MULTI-FAMILY HOUSING PROGRAMS

Section 515 Rural Rental Housing Loans: Increased home prices have resulted in a higher percentage of renters throughout the nation. More facilities are needed to meet the demand. The multi-family housing Section 515 program provides financing to build, purchase or repair apartment style housing for low- to moderate-income residents in rural communities with a population of up to 20,000 people. Financing is also available for rental assistance subsidies.

The housing must be modest in size, design, and cost, but adequate to meet the tenant's needs. Rent charges must be within limits that eligible occupants can afford to pay.

Eligible applicants include individuals, trust, associations, general partnerships, limited partnerships, State or local public agencies, profit, and nonprofit corporations. Nonprofit corporations may be organized on a regional or multi-county basis. Loans to nonprofits may be up to 100 percent of the appraised value or development cost, whichever is less.

Section 538 Guaranteed Rural Rental Housing Program: The Section 538 Guaranteed Rural Rental Housing Program is available thanks to a partnership between the Federal government and major financial lending institutions. The program is designed to help

qualified local lenders serve the rental housing needs of low- and moderate-income households in their community.

Under the RHS Guaranteed Rural Rental Housing Program, qualified lenders are authorized to originate, underwrite, and close loans for multifamily housing complexes requiring new construction. In turn, USDA will guarantee the lender's loan up to 90 percent of the total development cost and will commit to paying up to 90 percent of the outstanding principal and interest in the event of a default on the loan. The program has had less than a 1 percent default rate over its history.

The loan guarantees can be used with other subsidy funding programs such as the Low-Income Housing Tax Credit program, Montana Department of Commerce's HOME program, and state rental assistance programs.

To be eligible for the program, lenders should be approved as multi-family lenders through FHA, Fannie Mae, and Freddie Mac. Other lenders with multi-family lending experience may also be approved, such as Federal Home Loan Bank system members and State or Local Housing Finance Authorities (HFAs).

The lender must assume the risk on the unguaranteed portion of the loan and underwrite and originate loans for the guarantee. The lender performs all loan servicing functions, including asset management and liquidation, and monitors rent and income levels at the project.

Loan guarantees can be used for:

- New construction, moderate or substantial rehabilitation
- Acquisition of buildings that meet "special housing needs"
- Combination of construction and permanent loans
- Construction of a wide variety of housing types

Eligible borrowers include:

- Individuals
- Non-profit or for-profit corporations
- Partnerships
- Limited liability companies
- Trusts
- State and local agencies
- Indian tribes, and any other entity deemed eligible

Farm Labor Housing: Farm Labor Housing provides loans and grants to farm workers, family farm organizations, state and local public agencies, and private broad-based

organizations or nonprofit organizations of farm workers. The basic objective is to provide decent, safe, and affordable housing for domestic and migrant farm labor located in areas where the need exists.

Housing Preservation Grants: Housing Preservation Grants are provided to nonprofit and governmental organizations to remove health and safety hazards to owner-occupied residences or rental housing for low-income individuals. These grants are used along with other funding sources to accomplish the repairs.

Community Facilities Program: USDA Rural Development Community Facilities Program finances essential facilities including assisted living centers, group homes, transitional living units, and homeless shelters. Eligible projects also include fire, rescue and public safety services and community, social or cultural service facilities.

The Community Facilities program may be used for construction, expansion, or otherwise improving community facilities providing essential services in rural areas and towns with a population of 50,000 or less. Funds are available to public entities such as municipalities, counties, special purpose districts, Indian Tribes, and non-profit corporations. Loan terms will not exceed 40 years or the useful life of the facility financed. Interest rates are based on the Median Housing Income (MHI) of the project service area. Rural Development also guarantees community facilities loans made by banks or other lenders. The guarantee will normally not exceed 80 percent and the interest rate is negotiated between the applicant and the lender.

Community Facilities grants are also available to assist in the development of essential facilities in rural areas. Grant assistance is determined by a graduated scale based on population, median household income and economic feasibility. Grant funds are usually used to supplement financial assistance that may consist of Rural Development Community Facilities loans, applicant contributions or loans and grants form other sources. The amount of grant funds provided for a facility shall not exceed 75 percent of the cost of developing the facility.

GUARANTEED LOAN PROGRAMS

A number of guaranteed loan programs at or below market rates are available for qualified homebuyers. Financial institutions in partnership with the Montana Board of Housing make guaranteed loans available to Native Americans and those living in rural settings. The Veterans Administration offers guaranteed loans to eligible service members, veterans, and unmarried surviving spouses.

HUD Section 184 Indian Housing Program: The Indian Home Loan Guarantee Program is a new and innovative housing program to enable Native American families and Indian Housing Authorities to gain access to sources of private financing. An Indian who will occupy the property as a principal home and has met certain credit and underwriting standards is an eligible borrower. An Indian Housing Authority is an eligible applicant as well. IHAs may borrow funds for the development of single-family homes that may be

subsequently sold to eligible borrowers. To apply, visit any approved lender (financial institution) and apply for a mortgage loan.

The Montana Board of Housing set aside $1,000,000 in recycled mortgage funds to provide the permanent financing for qualifying lower income individuals for single family homes located on trust land on an Indian Reservation that are guaranteed by HUD through Section 184 for Native Americans. The Board worked with local banks, Tribal representatives, Bond Counsel, State and Regional HUD officials to get special consideration and guarantees from the Secretary of HUD in Washington D.C. to enable the Board to participate in this program. *Contact person: Charles Brown, Montana Board of Housing, (406) 841-2840.*

VA Guaranteed Home Loans for Veterans: The U.S. Department of Veterans Affairs (VA) guarantees loans made by mortgage lenders to eligible military veterans, active duty military service members, certain members of the National Guard and Selective Reserves, and certain un-remarried surviving spouses of deceased veterans. The purpose of a VA Guaranteed loan can be to purchase, build, or improve personal residences, or to refinance an outstanding mortgage on a home. Properties securing VA loans must meet acceptable Minimum Property Standards. The VA does not require a down payment and the maximum loan amount is determined by the lesser of the appraised value or the cost of the home. "Cash out refinance loans" are limited to 90% of the appraised value of the home. Applicants must be determined to be a satisfactory credit risk and have sufficient income to repay the loan and certify they intend to occupy the property as their permanent place of residence.

To apply for a Certificate of Eligibility for VA Loan Guaranty Benefits, a veteran should complete a Request for Determination of Eligibility, VA Form 26-1880, and submit it with proof of military service to the nearest VA Regional Office. Further information about VA loans is available from the *VA Regional Loan Center, Box 25126, Denver, CO 80225 or by calling toll-free 1-888-349-7541.*

HUD/FHA MORTGAGE INSURANCE AND CONVERSION PROGRAMS

The Federal Housing Administration (FHA) helps homebuyers become homeowners through its mortgage insurance programs. An FHA insured loan is available to anyone with a satisfactory credit record, an income sufficient to afford the mortgage payments and adequate savings to cover a low down payment and closing costs. Homebuyers wishing to obtain an FHA insured mortgage should contact any FHA approved lending institution such as a bank, mortgage company, savings and loan or credit union.

Section 203B Insured Loans: This program is limited to owner occupant buyers for the purchase of a new or existing one-to-four unit dwelling. The down payment requirement is 3% of the first $25,000 of the purchase price, 5% of the difference up to $125,000 and 10% of the difference over that amount.

The maximum mortgage FHA can insure depends on local housing prices. For example, the maximum mortgage can range from a low of $86,317 to more than $202,500 depending on the number of units in the dwelling and the County in which it is located. Contact a lender for information on maximum mortgage limits in your area and to apply for an FHA insured mortgage. *Contact person: Don Smith, HUD/FHA, (406) 447-1483*

Section 203K Substantial Rehabilitation Insured Loans: This program allows an owner occupant or investor to finance the purchase of a property in need of repairs, or to refinance an existing loan and needed repairs. Using a 203K insured mortgage, the borrower can get one mortgage loan at a long term fixed (or adjustable) rate to finance the purchase price of the property as well as the cost of repairs. The benefit to the lender is that the loan is FHA insurable at closing, before any repairs are started. The benefit to the borrower is that only one loan is necessary to purchase and repair the home. Without 203K, a purchaser would likely have to obtain one loan to purchase the property, another loan to do the repairs and another permanent mortgage when the work was completed to pay off the interim loans with the permanent mortgage.

This program is flexible. It can be used to improve an existing one-to-four unit dwelling in any of the following ways:

1. Buy a home and remodel
2. Refinance your present home and remodel
3. Buy a house and move it onto a new foundation on another property
4. Place your manufactured home (built after 6/15/76) on a permanent foundation
5. Convert a single family home to a 2-to-4 unit property
6. Remodel a multi-unit property to a single family home
7. Rebuild a damaged or demolished home as long as the existing foundation is acceptable

For example, the 203K can be used to remodel a kitchen, add a bathroom, finish a basement, build a new garage, install new siding, drill a well, replace a septic system, update the plumbing, heating or electrical systems, repair or replace a roof, install new flooring, install energy efficiency items or any other type of remodeling idea you might have. Contact a lender for information on maximum mortgage limits in your area and to apply for an FHA 203K insured mortgage. *Contact person: Don Smith, HUD/FHA, (406) 447-1483.*

Home Equity Conversion Mortgages (HECM): Homeowners 62 and older who have paid off their mortgages or have only small mortgage balances remaining are eligible to participate in HUD's reverse mortgage program. The program allows homeowners to borrow against the equity in their homes. Homeowners can receive payments in a lump sum, on a monthly basis (for a fixed term or for as long as they live in the home), or on an occasional basis as a line of credit. Homeowners whose circumstances change can restructure their payment options.

Unlike ordinary home equity loans, a HUD reverse mortgage does not require repayment as long as the borrower lives in the home. Lenders recover their principal, plus interest, when the home is sold. The remaining value of the home goes to the homeowner or to his or her survivors. If the sales proceeds are insufficient to pay the amount owed, HUD will pay the lender the amount of the shortfall. The Federal Housing Administration, which is part of HUD, collects an insurance premium from all borrowers to provide this coverage.

The size of reverse mortgage loans is determined by the borrower's age, the interest rate, and the home's value. The older a borrower, the larger the percentage of the home's value that can be borrowed. For example, based on a loan at 9 percent interest, a 65-year-old could borrow up to 26 percent of the home's value, a 75-year-old could borrow up to 39 percent of the home's value, and an 85-year-old could borrow up to 56 percent of the home's value.

There are no asset or income limitations on borrowers receiving HUD's reverse mortgages. There are also no limits on the value of homes qualifying for a HUD reverse mortgage. However, the amount that may be borrowed is capped by the maximum FHA mortgage limit for the area. As a result, owners of higher-priced homes cannot borrow any more than owners of homes valued at the FHA limit.

HUD's reverse mortgage program collects funds from insurance premiums charged to borrowers. Senior citizens are charged 2 percent of the home's value as an up-front payment plus one-half percent on the loan balance each year. These amounts are usually paid by the lender and charged to the borrower's principal balance. Contact a lender for information on maximum mortgage limits in your area and to apply for a HUD/FHA Home Equity Conversion mortgage. *Contact person: Don Smith, HUD/FHA, (406) 447-1483.*

Section 248 - Mortgage Insurance Program on Indian Reservations and Other Restricted Lands: The Section 248 program insures mortgages for eligible Native Americans who wish to purchase or construct a home on trust lands. In the past, it was almost impossible for homeowners to obtain a mortgage on a reservation due to the restrictions on land ownership. HUD is helping to solve this problem through the Section 248 Program, which requires the active participation of tribes and certain measures to be taken by those tribes. Although allotted land is not eligible for this program, the following types of Indian land are eligible for Section 248:

Communally Held Lands: In this case, the U.S. government holds legal title and the undivided beneficial interest is held by the tribe as a single entity. When the tribe communally holds land, individual members share the property but cannot claim specific pieces of land.

Assignments: Although land is communally held, the tribe may confer a license on the individual to use a particular piece of land as desired. That license is usually referred to as an assignment and, while the terms of assignment may differ, it is usually passed on to heirs. *Contact person: Lyle Konkol, HUD/FHA, (406) 447-1487.*

STATE PROGRAMS

MONTANA BOARD OF HOUSING PROGRAMS

The Montana Board of Housing was created by the Montana Housing Act of 1975 in order to alleviate the high cost of housing for low-income persons and families. The funds to operate the programs administered under the act are generated through either the sale of tax-exempt bonds or from administrative fees. The board receives no state funds to operate the programs. The board's programs fall into three categories: home ownership, multifamily, and elderly programs. Each is described below.

HOME OWNERSHIP PROGRAMS

Single Family Mortgage Program: This program is financed through the sale of tax-exempt bonds issued by the Board. Because of the tax-exempt status of the bonds, the Board is able to loan the funds to lower income individuals in the form of low-interest loans. While the program is mainly to assist first time homeowners, in certain targeted areas, the borrowers need not be first time purchasers. The home is to be owner-occupied with limited business use of the property. Income and purchase price limits apply for area of Montana where the house is located. The refinancing of an existing home loan is not permitted. *Contact person: Charles Brown, Montana Board of Housing, (406) 841-2840.*

Recycled Single Family Mortgage Program: The board makes mortgage funds available through the recycling of mortgage prepayments and other funds held under prior bond issues of the Single Family Bond Program. The board works in partnership with local nonprofit housing providers and local governments to develop programs to target specific housing needs within the local community. The board provides the permanent, below market rate, 30-year mortgage financing. This is often coupled with federal grants or local funds to assist in making home ownership more affordable for lower income individuals and families. Applications are submitted through the Board's "Request for Proposal" process, on a monthly basis. *Contact person: Charles Brown, Montana Board of Housing, (406) 841-2840.*

Disabled Accessible Affordable Homeownership Program: The Board set aside funds to provide affordable, architecturally accessible homes for people with disabilities such that they can live independently. An eligible home buyer, spouse, child, or parent must have a permanent physical disability with a mobility impairment, may not have an annual income in excess of $30,000 or total family assets exceeding $50,000, and must be a first time home buyer or had purchased a home prior to becoming disabled and it is no longer accessible to their needs. *Contact person: Charles Brown, Montana Board of Housing, (406) 841-2840.*

MULTIFAMILY PROGRAMS

General Obligation (GO) Multifamily Rental Program: This program provides mortgage financing to owners of qualifying housing when the owner agrees to restrict the rents to a

specific amount, and to rent only to tenants below a maximum income level (generally 60% of median income). Currently this program is financing the permanent loans for projects, which receive multiple sources of funding through other programs, where rents on the projects are affordable to very low-income state residents. *Contact person: Mathew Rude, Montana Board of Housing, (406) 841-2840.*

HUD/Housing Finance Agency Risk-Sharing: On June 13, 1994 the Board received final approval from HUD to participate in the Risk Sharing program. The Risk Sharing Program works in partnership with the Department of Housing and Urban Development, whereby HUD provides mortgage loan insurance and the Board provides mortgage underwriting and loan management as well as financing, and the two entities share the risk of loss from a project default. The Board intends to finance the Program through the sale of tax-exempt multifamily bonds. *Contact person: Mathew Rude, Montana Board of Housing, (406) 841-2840.*

ELDERLY PROGRAM

Reverse Annuity Mortgage Loan Program for Elderly Persons: This program enables elderly Montanans to benefit from an additional income source from the use of their home equity. In addition to other uses, the funds may be used to make repairs or improvements to the home. Eligibility is subject to certain age and income requirements. This loan also requires borrowers to complete a reverse annuity mortgage counseling program. Loans can be from $15,000 to a maximum of $70,000 each. The maximum loan amount would be based on 80 percent of the FHA-determined property value. Currently, loans are at a five percent interest rate. *Contact person: Connie Boyer or Mathew Rude, Montana Board of Housing, (406) 841-2840.*

OTHER PROGRAMS

FANNIE MAE PROGRAM – MONTANA PARTNERSHIP OFFICE

Through the Montana Partnership Office, Fannie Mae will work to expand affordable mortgage products and services to support growing communities, under-served neighborhoods, and low- and moderate-income families; invest in affordable multifamily developments while working to preserve the affordability of existing rental housing units; and expand access to mortgage credit on Native American reservations in Montana.

Fannie Mae does not lend money directly to homebuyers. Rather, it purchases loans from lenders in Montana both directly and through "consolidating lenders". Loans are purchased in all markets, at all times, regardless of any economic changes.

Our HouseMontana Investment Plan will serve 11,000 Montana Families with a $1.25 billion package of mortgage programs over 5 years. The HouseMontana Investment Plan is targeted for low- and middle-income families, but most of the mortgage options have no income eligibility limits. This plan is part of a $2 trillion effort by the company to expand

housing opportunities nationwide. Fannie Mae's commitment will help families as well as being a boon for the housing industry.

The Montana Partnership Office and Fannie Mae offer several options for prospective borrowers. One program targets people unable to come up with the down payment necessary to buy a home. Another program offers loans that can be used to buy and renovate older homes. For borrowers with past credit problems, Fannie Mae offers a mortgage that is 2 percentage points below what others with bad credit would have to pay. The rate is reduced another 1 percentage point if the borrower makes timely payments for the first two years.

The company has programs specifically for first time homebuyers and to help finance homes on Indian reservations.

Fannie Mae is a lead partner of the Montana Homeownership Network; purchases single-family mortgage revenue bonds issued by the Montana Board of Housing; invests in Low-Income Housing Tax Credit projects; and is focused on serving the unmet needs of our Native American population.

Contacts: Helena: Maureen Rude, Director, or Jerilee Brooks, Admin. Assistant, (406) 443-6940, Fax: (406) 443-6950; Billings: Mary Lou Affleck, Deputy Director, (406) 259-7049, Fax: (406) 259-7077.

FANNIE MAE HOMECHOICE[SM] MORTGAGE – MONTANA PILOT PROJECT

The **Montana Home Choice Coalition** is a coalition of consumers with disabilities, service providers, advocates, federal, state and local agencies, and the housing finance community working together to promote homeownership, affordable rentals, and other community living opportunities for people and families with disabilities. A.W.A.R.E., Inc., a statewide nonprofit organization serving individuals and families with disabilities, serves as the lead coordinating agency of the Coalition. The Coalition has convened through the support of the Fannie Mae Montana State Partnership Office.

The Montana Home Choice Coalition was recently approved to offer the Fannie Mae HomeChoice[SM] Mortgage for People with Disabilities and is starting with a pilot project in Bozeman, Butte, Helena, and Missoula. The participating lenders include American Federal Savings Bank in the Bozeman, Butte and Helena service areas, and Missoula Federal Credit Union in the Missoula service area. Expansion of the project to other areas of the state is expected in the future.

Fannie Mae's HomeChoice[SM] Mortgage for People with Disabilities is specifically designed for low-and moderate-income people who have disabilities, who have family members with disabilities living with them, or who have family members they would like to assist in buying a home. The Fannie Mae HomeChoice[SM] Mortgage offers financing flexibility targeted at the needs of individuals and families with disabilities:

- Budget Based mortgage qualifying including non-income sources of support and actual living expenses
- Nontraditional credit history recognized
- Down payments as low as $500
- Refinancing option
- Rehab and access modification financing option
- Flexible qualifying ratios
- 15 or 30 year fixed terms

Eligible Borrowers:

- Any low- or moderate-income individual defined as disables by the Americans with Disabilities Act of 1990 or defined as handicapped by the Fair Housing Amendments Act of 1988, or a family with a person with a disability living in the household.
- A co-borrower who will not be living in the home may be part of the transaction, as long as the co-borrower is a family member or a legal guardian, e.g., a parent could sign the mortgage with an eligible adult child with a disability even if the parent does not plan to live in the home. The non-occupying co-borrower has no income limit eligibility.
- Occupying co-borrowers, e.g., two roommates who would like to buy a home together.

Eligible Properties:

- Owner-occupied single-family detached houses, townhouses, and condominiums are eligible.
